

Automate your FIX Onboarding with PhiFIX

No more manual intervention while onboarding & certifying your new market participants, venue or asset class. In the fast paced techno-world, the process has to be automated and the operational cost need to be reduced and this can be made possible with Sensiple's FIX Onboarding Tool

PhiFIX Certificate Suite

PhiFIX Certificate Suite (PCS) is a multi-protocol onboarding tool to achieve certification reporting to market participants.

Counterparties to verify their functional test scenarios and other capabilities using PhiFIX Certificate Suite with immediate feedback reports. When a test scenario gets connected and executed, Certification reports are generated accordingly. Multiple test client connections are achievable with single/multiple listener connection configurations. It reduces overall operational costs and self-certifies before entering real-time complex trading environment.
