“

Our product works both with
Skype for Business on premise and O365 cloud versions

”

Minimize Call Handling Time

All user information is presented in a contextual interface, enabling an agent to provide better customer support call experience.

Improve Agent Productivity

Boost agent morale with minimizing toggling time between tools, manual ticket look up and re-enter customer interaction information.

About Sensiple

Sensiple is a brand owned by E Pro Inc., a New Jersey Corporation. Sensiple is an IT services and product company established in 1999 and headquartered in New Jersey with presence in North America, APAC and EMEA markets. Our IT engineering service verticals include customer experience, digital & enterprise transformation, infrastructure and independent testing/BPS serving clients in Telecommunications, Manufacturing, BFSI, Retail and Healthcare industries. Sensiple also holds a distinguished position in the capital market technology industry with algorithm intensive technology products that address the needs of high volume transaction based electronic communication networks (ECN).
